

VOST Europe in the Catalan Attacks of August 2017

The 1st attack happened shortly after 17:00h on the 17th August in Barcelona, and the 2nd around 01:30 on the 18th in Cambrils. VOST Europe volunteers participated from very early on, mainly to support VOSTcat and VOST Spain, but also to amplify key messages (including the ones from foreign offices).

Laurent Alfonso and Iratxe Gomez were active for VOST Europe; Iratxe was also active with her local team (VOST Euskadi) and Laurent was in continuous contact with VISOV. We used Twitter for publications, and Whatsapp for communication between us and with other teams and influencers. Mistakes were also made.
